

Introducing
seylease[®]

Leasing Company (Seychelles) Limited: Seylease.

We are the first vehicle leasing & fleet management company in Seychelles, offering a wide range of vehicle leasing solutions for both individuals and businesses.

OUR LEASING SOLUTIONS INCLUDE:

Full Maintenance Lease

Finance Lease

Maintenance Management

Our Leasing & Fleet Management Solutions

Full Maintenance Lease (FML)

A comprehensive leasing solution for individuals and businesses looking to simplify vehicle management with minimal administrative hassle.

Key features:

Up to 100% Financing | Maintenance | Tyres | Insurance | Licensing | Replacement Vehicle | 24/7 Roadside Assistance | Vehicle Usage

Finance Lease (FL)

A tailored financing solution for individuals and businesses seeking to acquire a vehicle or a fleet at the end of the lease period.

Key Features:

Up to 100% Financing | Vehicle Ownership at the end of the lease period | Fixed Monthly Payment

Maintenance Management (MM)

We provide maintenance management services to both individual and corporates with an existing vehicle or fleet helping you to reduce downtime, control costs and keep your vehicles in optimal running condition.

Key Features:

Maintenance & repairs | Insurance | Licensing | Replacement Vehicle | 24/7 Roadside Assistance

Benefits of leasing & fleet management

Flexibility:

Choose between our flexible options for a hassle-free experience.

Wide Selection of vehicles:

Leasing gives you the opportunity to drive new, higher-quality vehicles that might otherwise be too costly to purchase outright.

Outsourcing solution:

Leasing eliminates the risks associated with vehicle depreciation, allowing businesses to focus on operations rather resale value.

Financial Advantage:

Control your budget and reallocate your cash to core activities

Maintenance & Support:

With our Maintenance solutions, we handle all maintenance, so you can focus on the road, not the repairs.

Visit our website:

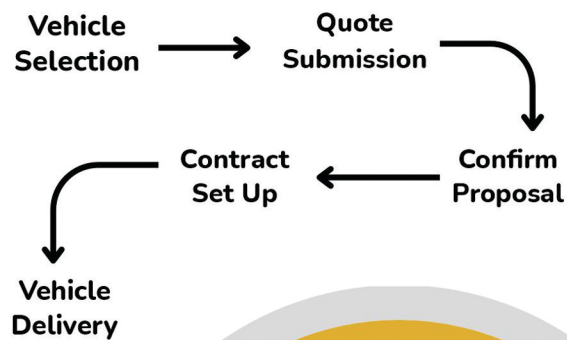

What vehicles do we finance?

Our customers can choose from a suite of vehicles including cars, SUVs, vans and pick-ups. They can choose from internal combustion engines (ICE) vehicles, electric vehicles (EVs), hybrids and plug-in hybrids (PHEVs).

Get Started!

Contact us for a consultation to assess your fleet needs. Our team will then provide a customized solution tailored to your business requirements.
